

PE and Sports Funding

Over the last two years, the school has received additional funding from the DfE to support the development of Physical Education and Sports in Schools. This year Crowland Primary's PE and sport premium funding is a total of £9640. With the funding, we aim to encourage and inspire every child and identify and develop their personal skills. The aim of the funding is to help provide the children with a wide range of exciting sporting activities and help children to stay fit and healthy. The funding will be used to ensure all children participate in sports and give children the opportunity to compete in a variety of sports both individually and as part of a team. Children will also have the opportunity to challenge themselves as individuals by setting personal targets.

Please follow the link for guidance about how this funding can be spent.

[Sports Grant Expenditure Report](#)

Please see the attached documents to see how we have utilised the Sports Premium funding in the year 2014-2015 to maintain and further improve our provision of PE and Sport. Below you can also access the plan for the current academic year.
